The Office of Student Financial Services has established a student budget for the cost of attendance and personal expenses based upon average yearly costs. Although every effort is made to optimize financial options for students, we understand that extraordinary circumstances may arise that justify a review of your financial situation. In accordance with federal guidance, financial aid counselors may exercise professional judgment in certain situations to update your FAFSA information to more accurately reflect your circumstances.

Special Circumstances Include
Computer Purchase
Child or Dependent Care
Death of Parent or Spouse
Medical or Dental Expenses
Involuntary Employment Loss or Retirement

Students who meet the above criteria may submit a Special Circumstance request and accompanying documentation after your current year FAFSA has been filed. A determination will be made as soon as practicable after the program census date for the term. Submission of this request does not guarantee a change in financial aid eligibility, but may result in a grant, increased loan eligibility or an adjustment to your Cost of Attendance (COA). The decision of the Financial Aid Appeals Committee regarding adjustments is final and cannot be appealed to the Department of Education. Please visit our [website](#) for more COA details.

Submit forms using the **Document Upload** feature on myUTH. All documents must be clear and legible. Emailed documents will only be accepted when received from the student's university email.
